

Hello,

K-LOVE is such a positive part of my life that I don't want the FCC to displace this station by an LPFM broadcaster. Sometimes I can't always get the signal of K-LOVE but I can listen to it online. I believe that if K-LOVE were taken off the air it would be such a public disservice. This station is great for a variety of people and it would be a shame for it to be taken off the air.
